ARMY SPECIAL RULES

This section of the book describes all the different units used in a Wood Elf army, along with any rules necessary to use them in your games of Warhammer. Where a model has a special rule that is explained in the Warhammer rulebook, only the name of that rule is given. If a model has a special rule that is unique to it, that rule is detailed alongside its description. However, there are a number of commonly recurring 'army special rules' that apply to several Wood Elf units, and these are detailed here.

AMBUSH FROM THE WORLDROOTS

A Wood Elf army can always place an additional forest no more than 12" in diameter on the battlefield. This is done during deployment, before any units are deployed, and must be placed wholly in your half of the battlefield. Declare which type of forest it is when you place it. If you cannot fit the forest on your half of the table, move other terrain features by the shortest distance necessary so that the forest can be placed. If you still cannot place the forest, or if the scenario means that the Wood Elf army does not have a table half in which to deploy, this additional forest is not used in this battle.

ASRAI ARCHERY

Models with this rule do not suffer the normal -1 To Hit penalty for moving and shooting.

BLESSINGS OF THE ANCIENTS

A Wizard that has this rule and is within 6" of a forest gains a +1 casting and dispel bonus.

ELVEN SHORTBOW

Elven shortbows have the following profile:

Range:	Strength:	Special Rules:
16/24"	3	Armour Piercing (1), March & Shoot, Multiple Shots (2)*, Volley Fire

**Only applies in turns the model has not marched.
Cannot be used as a charge reaction*

ELVEN LONGBOW

Elven longbows have the following profile:

Range:	Strength:	Special Rules:
24/36"	3	Armour Piercing (1), Multiple Shots (2)*, Volley Fire

**Only applies in turns the model has not moved.
Cannot be used as a charge reaction.*

ELVEN GRACE

Models with this rule have the Dodge (6+) special rule in close combat. However, this cannot be used against enemies that attack before the model with Elven Grace.

ENCHANTED ARROWS

Some models in the Wood Elf army have the option to purchase enchanted arrows. If a model has enchanted arrows, they must use them when shooting with Elven shortbows or longbows. Note that a model can only have one kind of Enchanted Arrows.

- **Arcane Bodkins:** Shooting attacks made with Arcane Bodkins have the Armour Piercing (1) special rule.
- **Hagbane Tips:** Shooting attacks made with Hagbane Tips have the Poisoned Attacks special rule.
- **Moonfire Shot:** Shooting attacks made with Moonfire Shot have the Flaming Attacks and Magical Attacks special rules.
- **Starfire Shafts:** Shooting attacks made with Starfire Shafts have the Magical Attacks special rule and force enemies to re-roll successful Panic tests caused by Heavy Casualties.
- **Swiftshiver Shards:** Shooting attacks made with Swiftshiver Shards allow the model to fire Multiple Shots even when moving (in case of longbows) or marching (in case of shortbows) that turn.
- **Trueflight Arrows:** Shooting attacks made with Trueflight Arrows ignore all shooting modifiers that are not caused by magic items or spells.

FOREST SPIRIT

A model with this rule has the Fear, Forest Strider, Immunity (Psychology), Magical Attacks and Magical Ward (5+) special rules. However, units of Forest Spirits may only be joined by characters that are also Forest Spirits and vice versa.

FOREST STALKER

While inside a wood, models with this special rule are at an additional -1 to be Hit with missile attacks. In addition, when using the Scouts special rule they may deploy within 12" of an enemy unit if they do so within a wood.

LETHAL SHOT

Models with this rule have the Killing Blow special rule with missile attacks from their Elven longbows or shortbows.

MARTIAL MEMORIES

Models with this rule may re-roll 1's when rolling To Hit and To Wound in close combat.

SAEARATH

Spear. Unless used with a shield in combat or when using the Mighty Blow (1) special rule from the weapon, a model armed with a saerath gains +1 Attack.

SHADOW DANCES OF LOEC

Models with this rule may choose one of the following Shadow Dances at the start of each round of close combat. This is done before Impact Hits are resolved. All models in the same unit must choose the same Shadow Dance. The effect of each Shadow Dance lasts until the end of that turn or until a new Shadow Dance is chosen. Models cannot choose the same Shadow Dance in two consecutive rounds of combat.

- **Whirling Death:** The model gains the Armour Piercing (1) and Killing Blow special rules.
- **Storm of Blades:** The model gains +1 Attack.
- **The Shadows Coil:** All close combat attacks against the model suffer -1 To Hit.
- **Woven Mist:** The model gains the Always Strikes First special rule.

TREE ASPECTS

Models with this rule may choose one of the following Tree Aspects at the start of each round of close combat. This is done before Impact Hits are resolved. All models in the same unit must choose the same Tree Aspect. The effect of each Tree Aspect lasts until the end of that turn or until a new Tree Aspect is chosen. Models cannot choose the same Tree Aspect in two consecutive rounds of combat.

- **Birch Aspect:** The model gains +1 Attack.
- **Oak Aspect:** The model gains +1 Toughness.
- **Willow Aspect:** All close combat attacks against the model suffer -1 To Hit.
